MANUFACTURING
SHENGLIPAK
SINCE
2012

About Us

Founded in 2012, **ShengliPak** is a leading manufacturer of **Paper-Based Aseptic Liquid Packaging** in China. Our products are primarily used for packing non-carbonated beverages such as milk, juice, plant-based and alcoholic drinks. Supplied in **roll form**, they are fully compatible with mainstream roll-fed aseptic filling lines.

With an annual capacity of **12 billion packs** and advanced production lines, we supply high-quality packaging to top global and domestic brands such as Nestlé, Yili, and Mengniu.

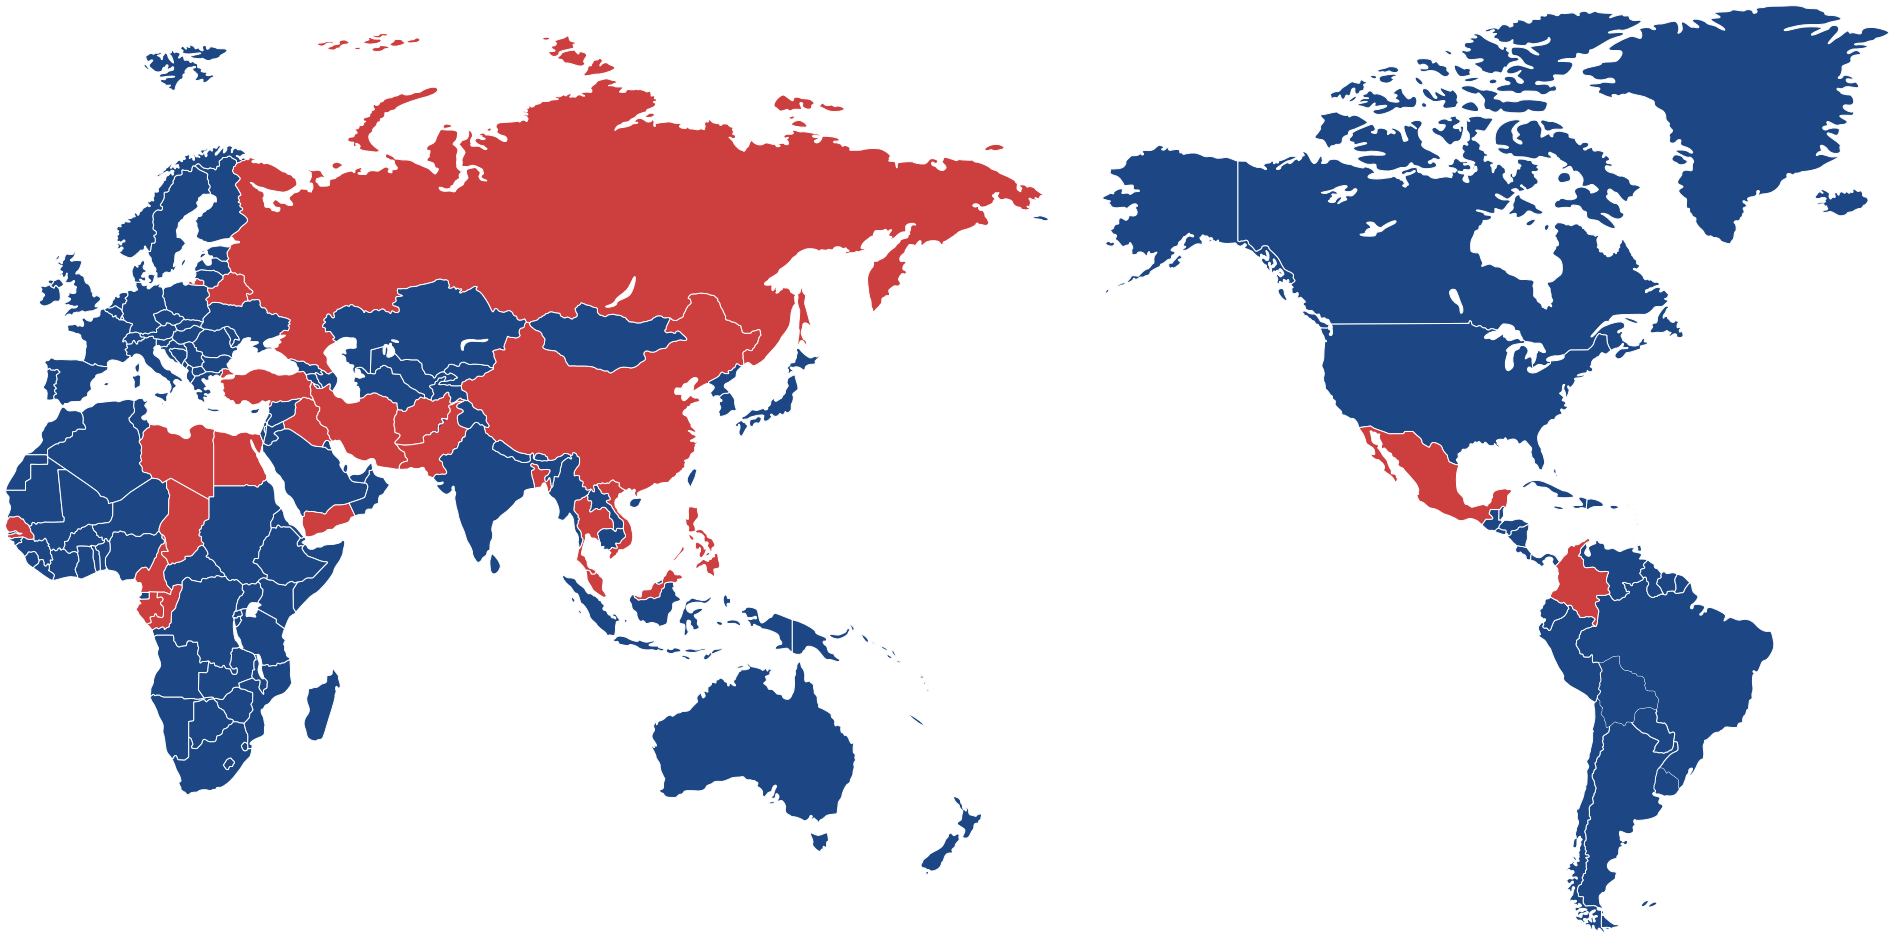

Backed by strong R&D and focus on continuous innovation, we provide diversified, high-performance, and sustainable packaging solutions to meet the evolving needs of the liquid food industry.

Product Structure

① Inner PE—Food contact & sealable

② Adhesive PE—Bonds aluminum to inner PE

③ Aluminum Foil—High-barrier layer blocks light & oxygen

④ Adhesive PE—Bonds paperboard to aluminum foil

⑤ Paperboard—Provides structure & printable surface

⑥ Outer PE—Moisture-resistant and hygienic protection

Experienced Professionals & Strong R&D Capabilities

Industry Expertise

Talent from top-tier aseptic packaging companies, bringing proven expertise.

Innovation-Driven R&D

Advanced R&D center focused on materials, processes, and product innovation.

Customer-Focused Solutions

Tailored packaging solutions driven by client needs and market trends.

Sustainability at the Core

We integrate sustainability into every aspect of our operations, focusing on reducing our environmental footprint and promoting a circular economy.

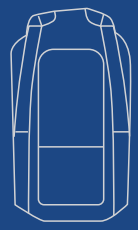

Green Electricity : Powering production with renewable energy sources.

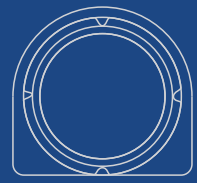

Photovoltaic System : Introducing on-site solar power generation.

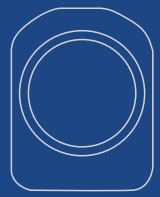

Recyclable Materials : Increasing the share of recyclable and eco-friendly materials in our products.
