Establishment time
2004

Customers served
10000+

Company members
100+

Industry experience
20+

Eastech Microelectronics Technology was established in 2004. The company's headquarters is located in Huaqiangbei, Shenzhen, the world's electronic component distribution center. With years of experience in the electronic component industry, extensive channel resources, and a group of high-quality professionals, the company is committed to delving deeply into electronic components and is a professional electronic component supplier with comprehensive competitive advantages.

After 20 years of market development, our professional service team can provide customers with satisfactory pre-sale to after-sale services. We can also help customers receive, deliver and make payments on their behalf. Our corporate mission is to provide customers with high-quality products and services, help their enterprises grow stronger and larger, and achieve win-win cooperation.

Basing on the principle of "Integrity, Reliability, Professionalism and Efficiency", Eastech has gathered a group of professional, well-trained service teams to provide customers with excellent services in a flexible and efficient way.

Certification Qualification

Authoritative certification guarantees development, and systematic management drives progress. Every certificate is a powerful interpretation of "reliability".
