

COMPANY PROFILE

Holding 28-year Experience in Manufacturing of Capacitors

Shenzhen Topmay Electronic was founded in 1998. We are engaged in manufacturing, researching and developing a wide variety of capacitors. Headquartered in Shenzhen, we have two factories to support our large production output. More than 1,000 customers in Europe, the Americas and Asia have been cooperating with us, which gave us \$6 million sales in 2009.

A Wide Product Range to Choose From

By closely following the latest market trends, we design products with new and distinctive features. Nowadays, our series of capacitors can be divided into five major types with more than 3,000 models, including:

- Multilayer ceramic capacitors (radial, axial, and SMD)
- Ceramic disc capacitors (low and high voltage)
- Aluminum electrolytic capacitors (radial, axial and SMD)
- Film capacitors (polyester, polypropylene and metalized)
- Tantalum capacitors (radial, SMD, axial and others)
- Mica capacitors
- Super capacitors
- Various resistors

Monthly Output Reaching One Million Units

Our large factory in Jiangsu produces capacitors and semiconductors. Every month, we roll out one million units of each product. We can also deliver your orders promptly to shorten your time-to-market.

We believe product quality is the life of a company. In order to serve our customers better, we have made investments so that our products can meet CCC, CE, MIC, SA, UL, FCC, TuV and SGS standards. Furthermore, we are ISO 9001:2000-, ISO 14001- and ISO/TS 16949-certified.

Offering Prompt Delivery Services

Our buyers have benefited from our prompt delivery services, such as:

- In-stock items: three- to five-day lead time
- Regular orders: seven- to 10-day lead time
- OEM orders: 15-day lead time
