

Shell Style Quick Reference			
	Standard	Main feature	Material
D38999 Series	MIL-DTL-38999 III	High-density Self-locking, ratchet coupling Triple-start, impact-resistant stub threads	Aluminum Stainless Steel
D38999 Series	MIL-DTL-38999 II	Mis mating Eliminated Quick Positive Coupling Error Proof Alternate Positioning	Aluminum Stainless Steel
D38999 Series	MIL-DTL-38999 I	Standard Bayonet Scoop Proof Durability 500 High Impact Shock	Aluminum Stainless Steel
26482 Series	MIL-DTL-26482 II	Bayonet Coupling Crimp Rear Insertable Rear Releasable Contacts	Tin Plated Steel Housing
26482 Series	MIL-DTL-26482 I Solder	3 Point Bayonet Coupling Crimp Rear Insertable Quick Positive Coupling	Tin Plated Steel Housing
26482 Series	MIL-DTL-26482 I Crimp	3 Point Bayonet Coupling Crimp Rear Insertable Quick Positive Coupling	Tin Plated Steel Housing
5015 Series	MIL-DTL-5015	Seven Mounting Styles Rear-Release Crimp Any Mix Of Both Contact Types Over 100 Insert Arrangement Patterns	Stainless Steel Shells Firewall Capability

### Mil-Spec D38999

MIL Standard: MIL-C-38999 III, MIL-DTL-38999 III

D38999/20 Wall Mount    D38999/24 Jam Nut    D38999/26 Self-Locking RFI

► D38999 III connectors have become indispensable for military, aviation and other rugged applications requiring exceptional durability under extreme conditions.

### MIL Standard: MIL-C-38999 II, MIL-DTL-38999 II

MS27472 Front Wall Mount    MS27473 Straight    MS27474 Jam Nut    MS27497 Rear Wall Mount  
MS27499 Front Box Mount    MS27508 Rear Box Mount    MS27513 Rear Box Mount    MS27484 RFI Ground

► MIL-DTL-38999 Series II connectors with fast, 1/3 turn bayonet coupling and a glass to metal seal achieving mil-spec sealing requirements.

### MIL Standard: MIL-C-38999 I, MIL-DTL-38999 I

MS27466 Front Wall Mount    MS27467 RFI Grounding Plug    MS27468 Jam Nut  
MS27505 Rear Box Mount    MS27496 Front Box Mount    MS27656 Rear Wall Mount

► MIL-DTL-38999 Series I connectors with fast, 1/3 turn bayonet coupling, scoop proof design to protect the contacts, and a glass to metal seal achieving mil-spec sealing requirements.

# LIC ELECTRONICS CO.,LTD

### Mil-Spec 26482

MIL Standard: MIL-C-26482 II, MIL-DTL-26482 II

MS3470 Wall Mount Narrow    MS3471 Cable Connecting    MS3472 Wall Mount Wide  
MS3474 Jam Nut Receptacle    MS3475 Straight Plug With RFI Grounding Fingers    MS3476 Straight Plug

► MIL-DTL-26482 Series 2 Connectors. This series provides a bayonet coupling connector with crimp rear insertable, rear releasable contacts.

### MIL Standard: MIL-C-26482 I, MIL-DTL-26482 I Solder

MS3110 Wall Mount    MS3111 Cable Connecting    MS3112 Box Mount  
MS3114 Jam Nut Receptacle    MS3116 Straight Plug    MS3118 Wall Mount Dual Holes

► MIL-DTL-26482 Hermetic connectors provide twice as many contacts as standard connectors in a small and compact package and feature an airtight glass-to-metal seal for extreme military and commercial aerospace environments.

### MIL Standard: MIL-C-26482 I, MIL-DTL-26482 I Crimp

MS3120 Wall Mount    MS3121 Cable Mount    MS3122 Box Mount    MS3124 Jam Nut    MS3126 Cable Plug

► MIL-DTL-26482 bayonet coupling connector with crimp rear insertable, rear releasable contacts.

### Mil-Spec 5010

MIL Standard: MIL-C-5010, MIL-DTL-5015 Crimp

MS3450 Wall Mount    MS3451 Cable Connecting    MS3452 Box Mount  
MS3454 Jam Nut Receptacle    MS3456 Straight Plug    MS3459 Straight Self-Locking Coupl Nut

► MIL-DTL-5015 Traditional threaded coupling, crimp contacts, and 77 insert arrangements offer a high degree of interconnect design flexibility.

### MIL Standard: MIL-C-5010, MIL-DTL-5015 Solder

MS3100 Wall Mount    MS3101 Cable Connect    MS3102 Box Mount    MS3106 Straight Plug    MS3108 90° Plug

► MIL-DTL-5015 The plug features an integrated waterproof wire-sealing backshell and cable clamp for strain relief. When disconnected, the plug should be sealed with a protective cover to ensure high reliability.

## » COMPANY PROFILE

Hong Kong Lian Li Cheng Electronics Co., Ltd. (referred to as: LIC) was established in 2009, is a military research institute specific components designated supplier. The company is headquartered in Shenzhen, Hong Kong, with independent warehousing, we have set up offices in China, Taiwan, Singapore, Moscow, have set up offices to be able to long-term and foreign parties to maintain stable cooperative relations. The company has a professional overseas ordering channels for special sensitive parts, industrial-grade parts. We always have a large number of original stock inventory, has a strong professional supply capacity to meet the needs of major units. In 2015, the company set up a "marketing department" in Shenzhen - Futian targeted at third-party qualified suppliers and market enterprises to provide universal military-grade, industrial-grade supply services.

The chairman of the company went to sea before the domestic military research institutes have been working diligently for more than ten years, during the period of time served in the R & D department minister and the head of the Department of Technology, during the period of outstanding work performance has also accumulated a very rich experience in technology and diversified human resources.

The company's first professional commitment to high-end military devices:

Strong brands: XILINX, ALTERA.

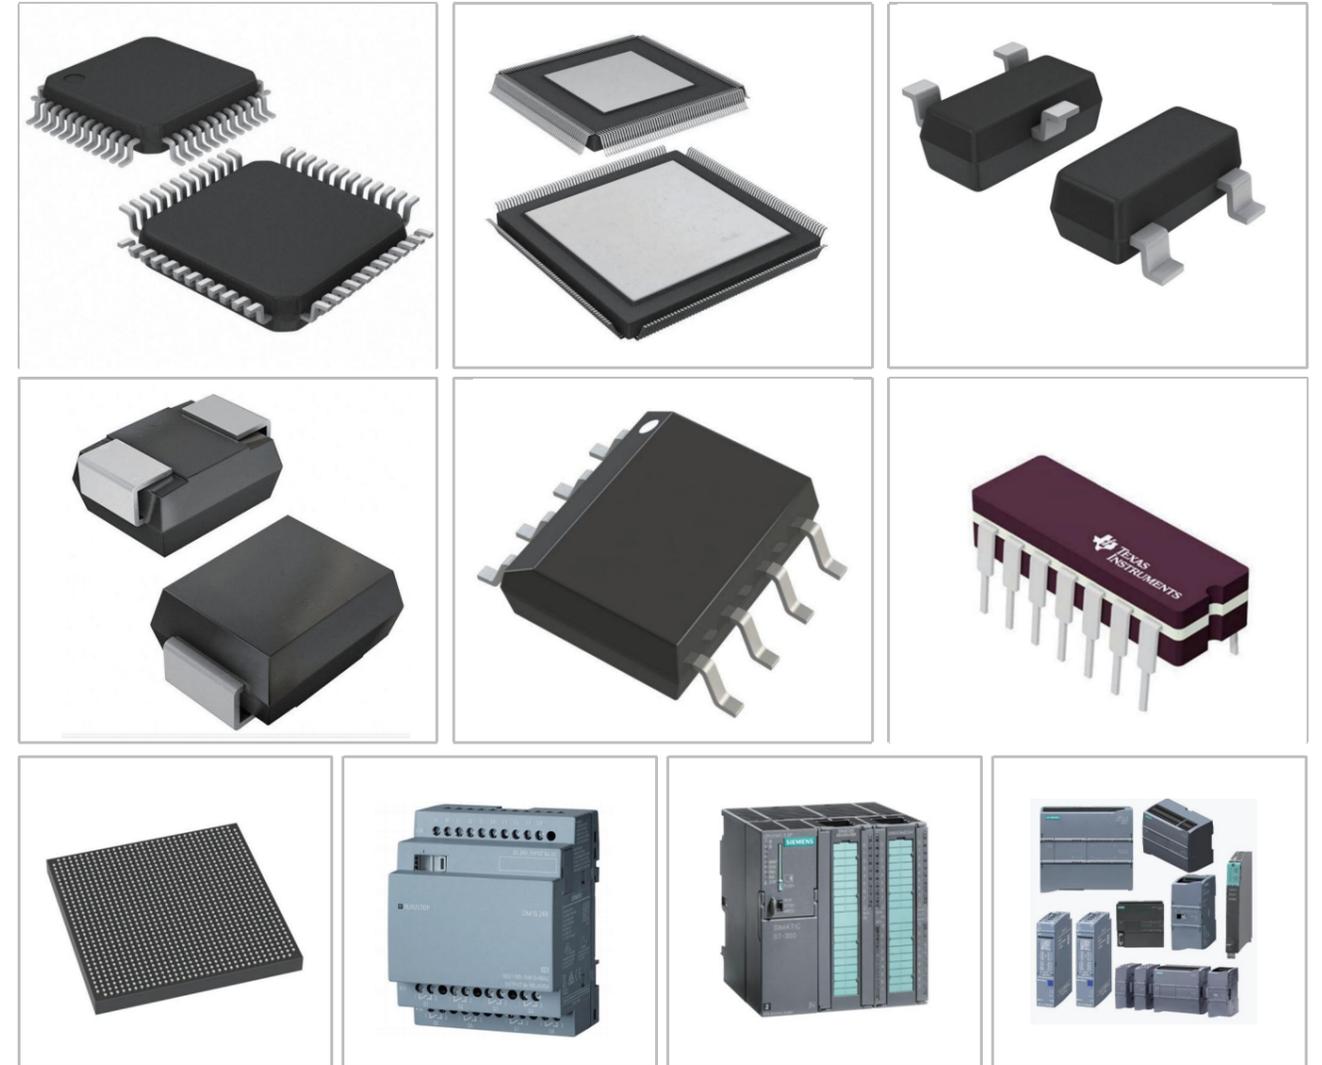

Advantageous brands of industrial devices: TI, ADI, INTEL, LINEAR, MICRON.

Military device brands: ACTEL, IR, TI, 3D-PLUS, ADI, INTERSIL, SMK, ATMEL, AEORFLEX, MICROSEMI...

Product applications: Aerospace, Military Weapons , Locomotives and Ships, Medical Equipment, Communication Equipment , Industry Automation, New Energy Vehicles , 5G Digital intelligent Equipment , Media Players, Data Processing and Storage.

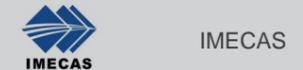

## » PRODUCT INTRODUCTION

## » » TYPICAL CUSTOMERS

E-services customer groups include aviation, aerospace service providers

Medical Device Manufacturers

Research Institute

Manufacturer of Communications Equipment

Automotive Electronics Manufacturer

Nuclear power, Industrial

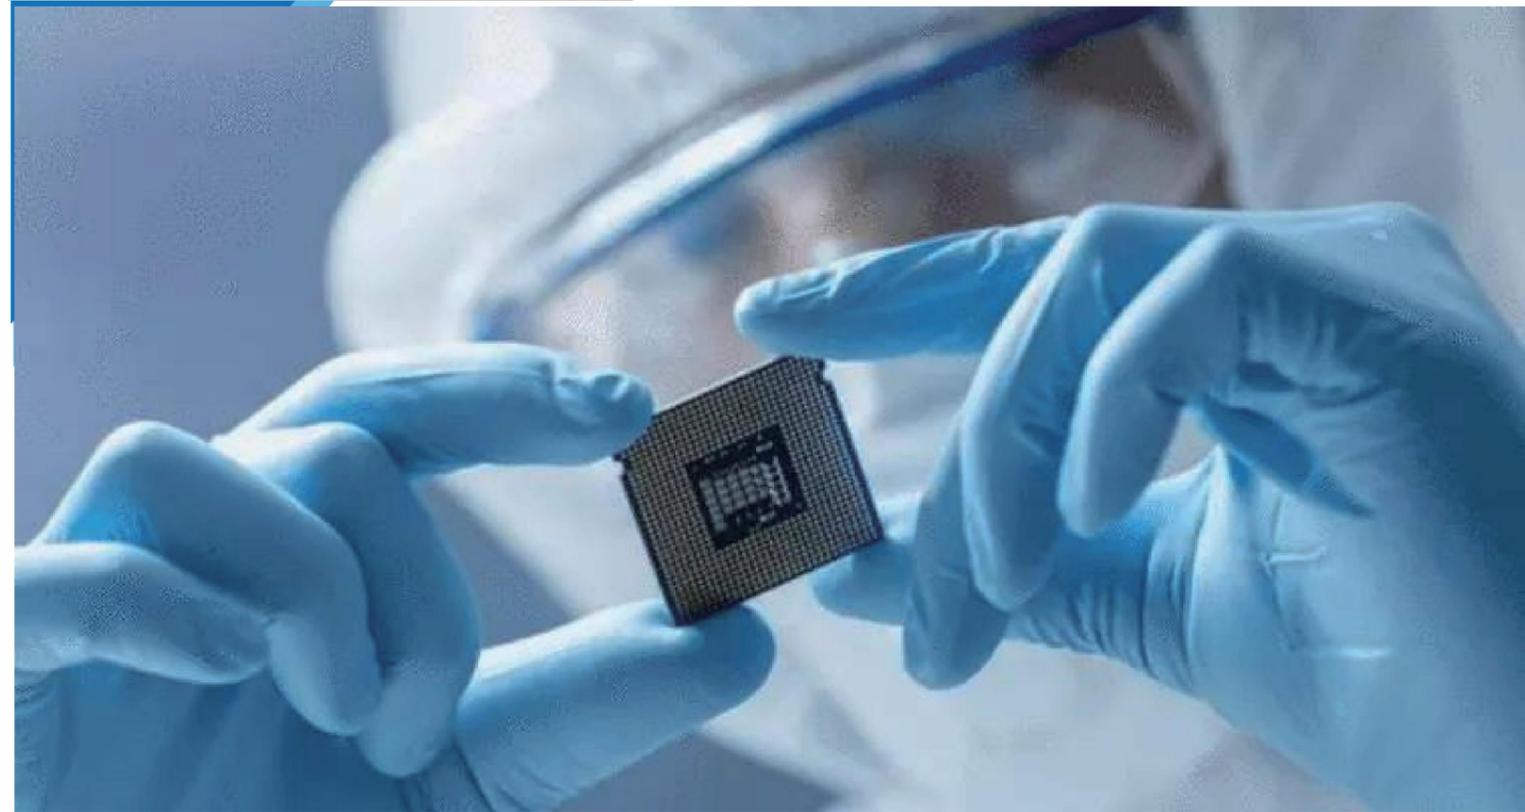

## »» PRODUCT INTRODUCTION

### MEMS IM (Gyroscope Series)

## » ENTERPRISE QUALIFICATION

(We have our own quality control laboratory and work closely with laboratories such as Whitehorse and GETS.)

SGS Certification

UKAS Accreditation

IAF Certification

ERAI Member

# » QUALITY CONTROL PROCESS

- Tester incoming inspection and authenticity verification
- Quality Engineer Validation
- External testing by a certified testing laboratory or testing organization

## Level 1 - Visual inspection of feed

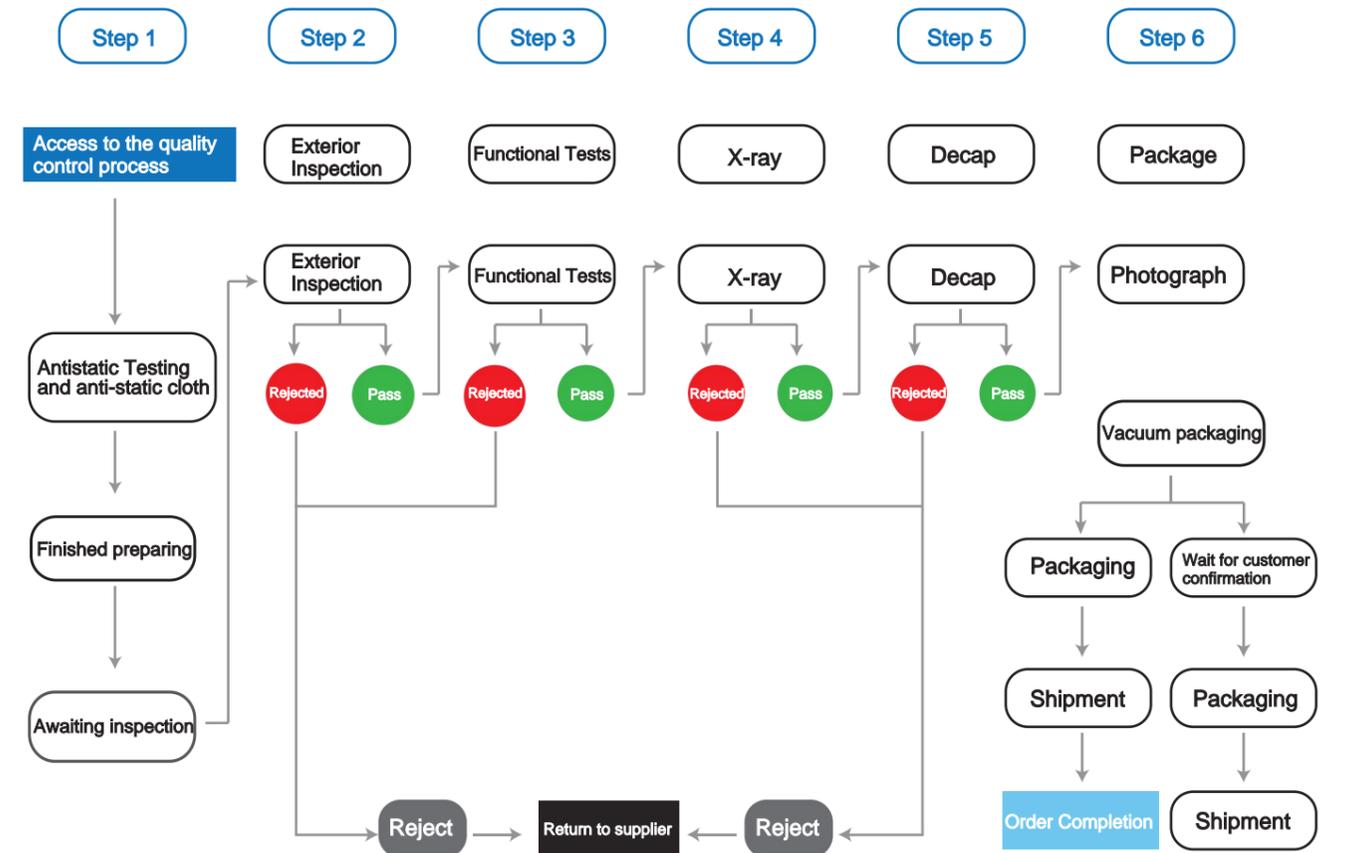

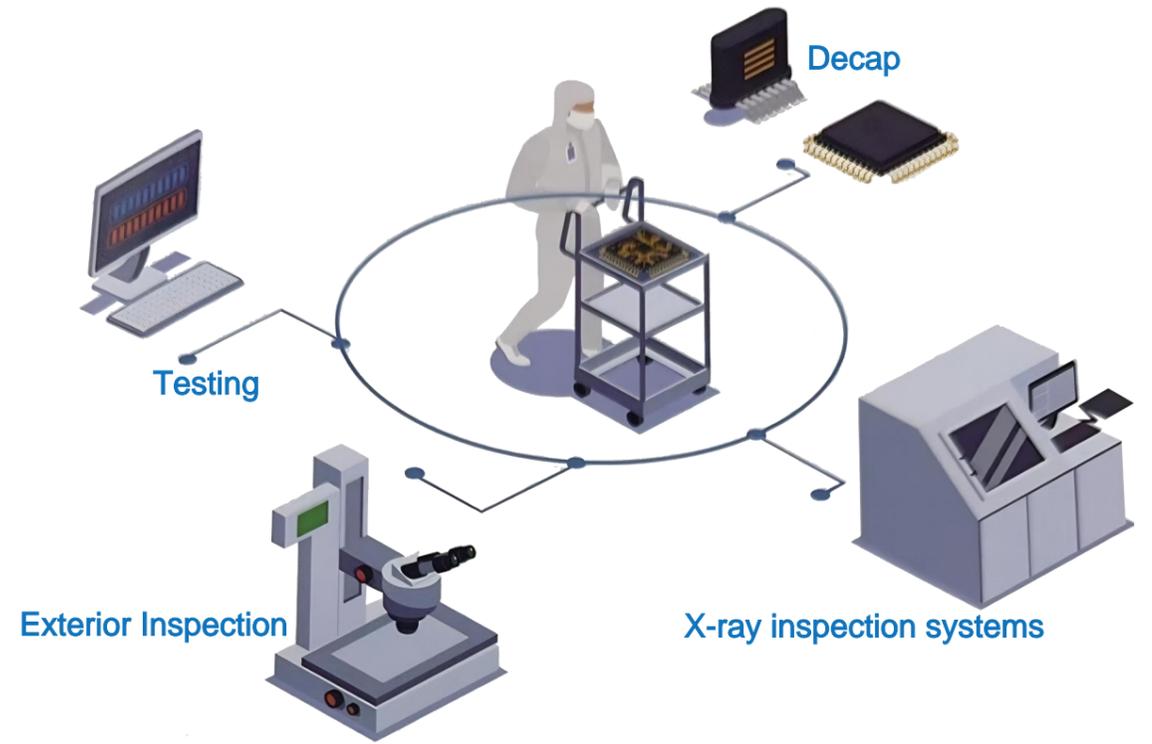

- 1. Packaging Inspection**  
Check the condition of the packaging for any signs of damage.
- 2. Document validation**  
Verification of supplier documentation.
- 3. Digital photography**  
Take a picture of the package received. (Label and package)
- 4. Store on shelf**  
Place the part on the positioner for the next process step.
- 5. Recording and receipt**  
Record all information and pictures in system and internal databases.
- 6. Requirements Validation**  
Verification of parts received against purchase orders.

## Level 2 - Quality Visual Inspection

- 1. PO/SO Requirements Validation**  
Verify acceptance of VsPO and SO requirements Information.
- 2. Part label validation**  
Part labels will be in an internal database Validated and compared.
- 3. Conducting sample visual inspections**  
Perform sample inspection (marking, Leads, solder balls) Surface.
- 4. Surface and scratch test**  
Perform surface and scratch tests.
- 5. Digital photography**  
Every process is photographed.
- 6. Size checking**  
Part sizes will be tested according to the data sheet.

## Level 3 - Quality Visual Inspection

- 1. Solderability Testing**  
Parts with date codes older than 2 years.
- 2. Radiography (X-ray)**  
Verify internal component structure (Non-destructive)
- 3. Lead polishing evaluation XPF (RoHS)**  
Verify Lead/Pin Compliance RoHS Compliance
- 4. Recorded and stored in a database**  
Information and photos will be kept in internal database.
- 5. QC Approval**  
QC approves release of parts.
- 6. Chip Mucosal Stripping**  
Verification of chip shape and authenticity.

## » » SERVICES AND ADVANTAGES

### GLOBAL SOURCING

We are supported by global OEMs, Original factory and distributors to maximize supply chain satisfaction.

Supply Chain: Our Channels

1. Global Market: We have shared inventory from global OEMs, such as EMS, JAB IL, FLEX TRONICS, FOXCONN, NVIDIA...and so on.
2. Distributor Market: We maintain strategic relationships with original manufacturers and distributors.
3. Qualified open market channels: strict standards and requirements for quality management, SGS, ISO9001: 2015 international quality management system certification.
4. LIC has more than 50,000 categories in stock in warehouses around the world.

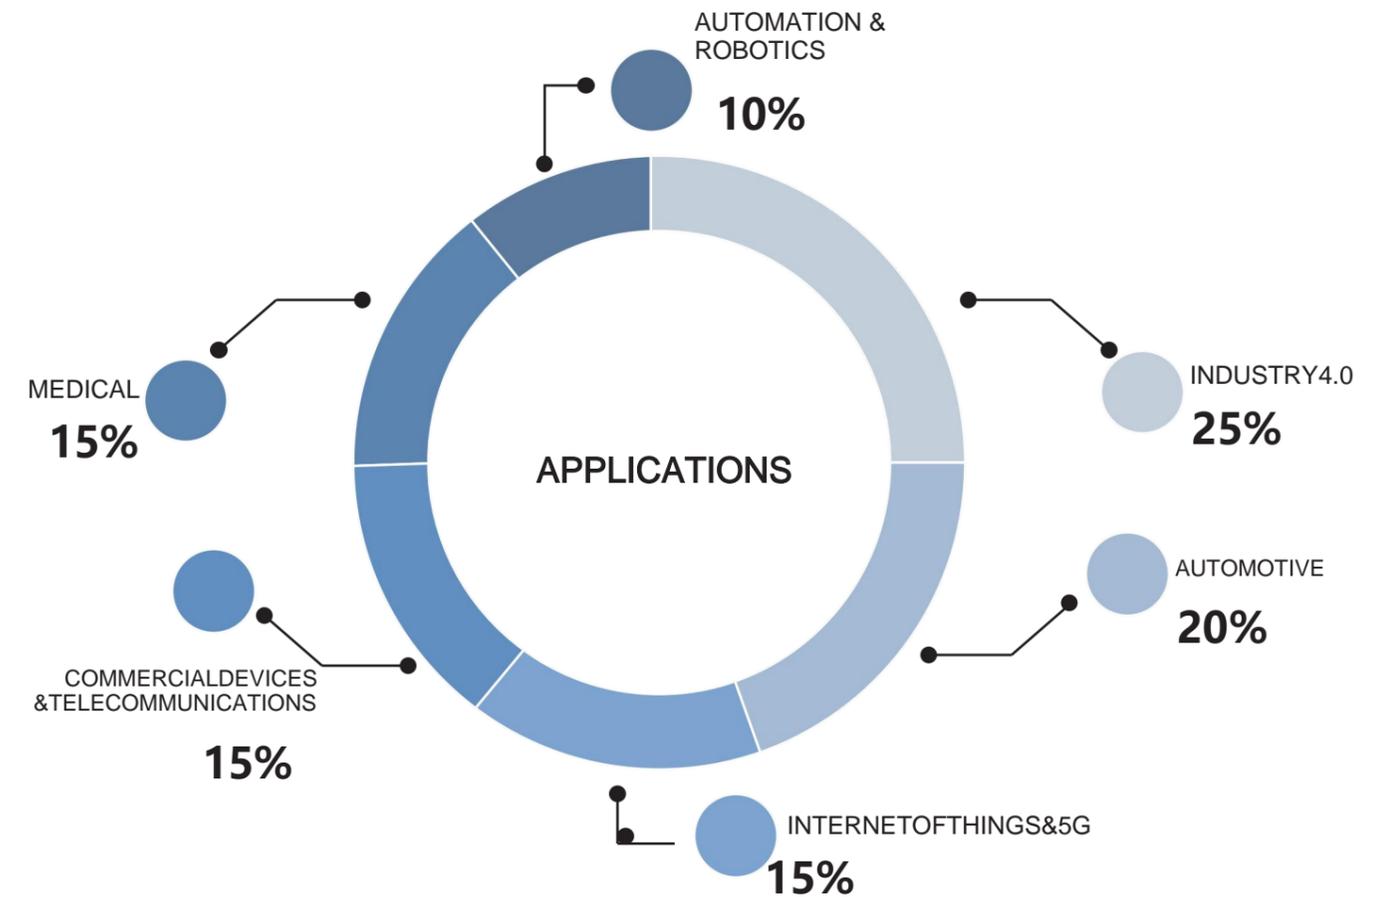

### INVENTORY SOLUTIONS

We provide customers with a full range of solutions including product application support, program design, after-sales technology and logistics.

### OBSOLESCENCE MANAGEMENT

We are a full-cycle solutions provider with partnerships with multiple component manufacturers and are committed to providing reliable component products to our customers worldwide.
