

**FOR IMMEDIATE RELEASE**

**February 11, 2026.**

### **Briti Scientific: Elevating Precision in Chemical Analysis with Certified Analytical Reference Standards**

**Moscow, Russia**— Briti Scientific, a global leader in the manufacturing of high-quality analytical reference standards, reaffirms its commitment to advancing precision, reliability, and regulatory compliance in chemical analysis across industries. With an extensive portfolio of certified reference materials (CRMs) and meticulously characterized substances, Briti Scientific empowers laboratories, research institutions, and industrial facilities to achieve accurate, reproducible results in their analytical methods.

#### **Setting the Benchmark for Chemical Analysis**

Briti Scientific specializes in producing reference standards that are indispensable for instrument calibration, method validation, and quality control. Serving diverse sectors—including pharmaceuticals, environmental monitoring, food and beverages, and chemical manufacturing—the company ensures that every product meets the highest standards of certified purity and accuracy. This enables organizations to maintain compliance with global regulations while driving consistency and excellence in their operations.

#### **Certified Reference Standards You Can Trust**

Every reference standard developed by Briti Scientific undergoes rigorous certification and testing using validated methodologies. Designed to serve as reliable benchmarks, these standards guarantee accuracy in measurement and calibration. Key offerings include:

- **Pure Substances & Mixtures** – High-quality standards for versatile applications.
- **Stable Isotopes & CRMs** – Certified materials for precision in trace-level analysis.
- **Trace Element Standards** – Critical for environmental monitoring and low-concentration detection.
- **Pharmaceutical Standards** – Fully compliant with international pharmacopoeial requirements, ensuring reliability in pharmaceutical quality control.

#### **Driving Innovation Across Industries**

By delivering accurate and dependable reference materials, Briti Scientific supports laboratories and industries in maintaining the highest levels of quality assurance. From routine testing to advanced research, its solutions enable professionals to achieve reproducible results, ultimately enhancing product quality, safety, and innovation.

#### **A Trusted Partner in Regulatory Compliance**

Briti Scientific's reference standards are fully aligned with national and international regulatory requirements. By helping organizations meet stringent compliance demands, the company ensures consistent, trustworthy outcomes while fostering operational excellence.

## About Briti Scientific

Briti Scientific is a premier manufacturer of analytical reference standards, offering a comprehensive range of certified, high-purity substances for chemical analysis. With a steadfast focus on quality, reliability, and customer satisfaction, Briti Scientific enables businesses worldwide to achieve accuracy and consistency in their analytical processes.
